Lehman for Godfrey discussed the Czech-East German communique.

Carver noted that Walt Rostow asked him to ensure that the intelligence community keeps an eye on the President's list of indicators as mentioned in his 31 March speech. Carver advised him that an already extant daily publication on enemy military activity should serve the purpose.

Bross drew attention to a request from General Maxwell Taylor for an assessment of the effect of the bombing on the interdiction of enemy infiltration of men and materiel. The Director asked that the DD/I memorandum prepared for Secretary Clifford on the ROLLING THUNDER program between 31 March and 30 June be sent to General Taylor.
